LOUISA, LAWRENCE COUNTY, KENTUCKY, JANUARY 30, 1920.

M. F. CONLEY and E. K. SPENCER, Publishers

PREDICTION THAT CENSUS WILL SHOW LOUISA OVER 2000

Fort Gay, Our Sister City, Believed to Have Over 600 Inhabitants.

We feel safe in stating that the 1920 census will show Louisa's population to be above 2000. The boosters have been claiming this for some time and we believe their claim will be fully verified. They will now move up a peg in their claim, true to the boosters rule.

The exact report of the new census being taken by the United States government will be watched with interest. If our estimate is correct the report will show more than a 50 per cent increase over the last census, which is not a bad showing. And the best part of it is, the growth is just starting in earnest.

If Louisa officially has passed the 2000 mark we have met the first requisite. In getting free mail delivery service within the city limits. Our Board of Trade will no doubt take notice of this fact at the proper time and help to push the matter along. Our sister city of Fort Gay, connected by a bridge, will show over 600 population, which is a substantial increase and a very creditable showing.

REPORT THAT FOUTY WAS NOT KILLED

There is a report going around that Fouty, the oil well shooter who was supposed to be blown to pieces in an explosion at the magazine two miles north of Louisa about four years ago, is alive and has been seen in New York. As the story goes, he had life insurance of \$20,000 and the explosion was a fixed up scheme to get this money. The team of horses was blown to bits. The destruction was so complete that nothing was found that could be positively identified as a part of Fouty's body. Some pieces of flesh were gathered, however, supposed to be from Fouty's body.

A SURPRISE WEDDING OCCURS AT FALLSBURG

Miss Pluma Collinsworth and Mr. Forrest Damron were married at Fallsburg Wednesday of this week by Rev. R. M. Curnutte. The wedding was in secret and the nearest relatives did not learn of it until the next day. There was no reason for the secrecy except a desire to surprise the families.

The bride is one of the handsome daughters of Mr. and Mrs. A. Collinsworth, of Fallsburg. Mr. Damron is a merchant at that place, being junior member of the firm of J. D. Damron & Son. He is a young man of good habits and strict integrity, and is to be congratulated upon winning the heart and hand of such a worthy and attractive young lady. The Union Company is starting wells No. 23, 24, 25, 26 and 27, on lands of Dr. Proctor Sparks, Mr. Holbrook, Daniel Skaggs, Roscoe Miller and J. Gambill heirs. The Union company is running about 200 barrels per day to market.

The well being drilled near Pearl postoffice on Brush Fork of Lick creek is expected in the Weir Thursday the 29th. If no production is found in this sand they will continue to the lower sands.

Latest reports from the Kelly Branch well is that about a half million feet of gas has been encountered and drilling through the sand not yet completed.

LOREN BERRY WAS KILLED BY ENGINE AT NOLAN, W. VA.

Loren Berry, formerly of Louisa, was instantly killed at Nolan, W. Va., last Saturday morning by an N. & W. locomotive. The body was taken to the home of his mother, near Fort Gay, and the burial took place Monday. Rev. H. B. Hewlett conducted the services. The wife and two small children survive. She is a daughter of Felix Thompson, of this county. Deceased was a son of the late Buchanan Berry, formerly toll keeper on the Louisa & Fort Gay bridge. M. G. Berry, of this place, was his uncle. He was about 26 years old. Just a few days before his death he had moved to Nolan, where he held a good position, and was making his home temporarily with his brother Hubert.

The accident occurred in the usual way—by standing on a railroad track, with his attention concentrated on a moving train on a parallel track. A shifting engine struck him and caused instant death.

Mr. Berry was a young man of excellent character. His death is a severe loss to the country and a most violent blow to his family.

A. C. Shannon and Family Returning to Louisa

One of Louisa's native sons probably will return to us very soon, after an absence of ten years, and he and his family will be welcomed home. We refer to A. C. Shannon, formerly known here as A. C. Pigg. In the outset we shall explain that by decree of court at Houston, Texas, his name was changed for the reason that the original name was very unusual in that section of country, and caused the children to be taunted and embarrassed by their associates in school and elsewhere. So the maiden name of his mother was chosen, and Shannon is now the legal name and must of necessity be used.

Mr. Shannon is a fine mechanic, a competent architect and an expert on building and construction. The development now on in this vicinity, and the natural longing to get back home, has caused him to consider returning here to locate. Houston was Mr. Shannon's home for several years, but lately he has lived in Pittsburg. Mrs. Shannon is a daughter of Mrs. Alice Paul, of Paintsville. These people will be valuable additions to our growing community. They are expected here within a few days to visit Mr. Shannon's mother, Mrs. Rebecca Lewis, and brother George Lewis. They expect to settle in Louisa, but will decide definitely after a visit.

CHURCH NEWS AND OTHER MATTERS OF RELIGIOUS NATURE

Bishop Kilgo Not Dead.

The report that Bishop Kilgo died last week is untrue. It started through an error in transmitting a telegram. The Bishop is alive and in his usual state of health.

Churches Gain 3,000,000 Souls.

America's churches have gained nearly 3,000,000 members since the last church census was taken in 1916, but there has been a marked decrease in the number of Sunday Schools and Sunday School pupils, according to "the yearbook of the churches," just issued by the Federal Council of the Churches in Christ in America.

Total church membership has increased 3,779,667, the announcement says, with an increase of 3,519 ministers, and 5,350 church organizations. The total number of churches is now 233,824. There are 195,513 ministers, priests and rabbis, with 44,709,521 members of their various organizations. The decrease in Sunday School membership is estimated at more than 3,500,000.

Total Protestant church membership is given at 25,980,456 and the Roman Catholic figures as 17,549,324. It is explained that Protestant figures include only adult communicant members of a family, while Roman Catholic statistics represent the entire family. Estimating four persons to a family, the Protestant constituency would be more than 50,000,000, the book says.

An estimate of members of Jewish synagogues is 260,000 and the two Mormon bodies report a membership of 494,388.

The largest Protestant body reporting was the Methodist Episcopal Church with 4,175,502 members, and the smallest the Primitive Friends with fifty members and two ministers.

The "Matter With" America.

What's the matter with America these days?

Too many diamonds, not enough alarm clocks.

Too many silk shirts, not enough blue flannel ones.

Too many pointed-toe shoes, and not enough square-toed ones.

Too many serge suits and not enough overalls.

Too many décollete and not enough aprons.

Too many satin-upholstered limousines and not enough cows.

Too many consumers and not enough producers.

Too much oil stock and not enough savings accounts.

Too much envy of the results of hard work and too little desire to emulate it.

Too many desiring short cuts to wealth and too few willing to pay the price.

Too much of the spirit of "get while the getting is good" and not enough of the old-fashioned Christianity.

Too much discontent that vents itself in mere complaining and too little real effort to remedy conditions.

Too much class consciousness and too little common democracy and love of humanity.—Fargo (S. D.) Forum.

The tongue is the most industrious member of the human body, and it is altruistic only to the extent that it often finds its sweetest exercise in talking about the "other man." You have become the victim of some one's tongue. As you muse, the fire burns.

You will have nothing further to do with him. You will not speak to him or, if you speak, you will do so with frigid restraint. O brother, do not carry out those bad resolutions. Go to the one who has wounded you. He may be able to prove that the wagging tongue has misrepresented him. If this be not the case, he may have an opportunity of telling you he is sorry and desires your forgiveness. Can you not see that after this you will be stronger friend than ever and life for both will be sweeter.

Biggest Sunday School in the World.

The First Baptist Church, of Fort Worth, Texas, is said to have the largest Sabbath school in the world. It has an enrollment of forty-four hundred. There are two hundred and fifty officers and teachers, all of whom have graduated from teachers' training classes; and "not one of them dances, plays cards, or breaks the Sabbath."

There are eleven paid workers. A Sabbath school building one hundred feet and four stories high accommodates the school. Almost the entire school remains for public service.—United Presbyterian.

M. E. CHURCH SOUTH.

Rev. J. D. Bell announced Sunday that he would go to the Evergreen church next Sunday to assist Rev. A. L. Moore in a revival meeting, but on account of bad roads the meeting has been postponed indefinitely.

The ladies of the Woman's Missionary Society served cream, cake and coffee to all who called at the church last Friday evening from 5 to 9 o'clock. It was the 40th anniversary of the organization of this society in the Louisa church. No branch of the church work here has a better record.

It has been a live organization all the time, standing always either at the head or nearly so in the list of societies in the Western Virginia Conference. A free will offering amounting to about \$23 was received Friday evening.

At prayer meetings the pastor is

giving some time to a study of the church discipline and it is proving both interesting and helpful.

Prof. Sauchere, head of the music department of Kentucky Normal College, has been giving the choir some valuable assistance, which is greatly appreciated both by the choir and the congregation.

Equip Your Small Car With Goodyear Tires

If you own a Ford, Chevrolet, Dort, Maxwell or any other car using 30x3, 30x3½, or 31x4-inch tires, you can well take advantage of the high relative value built into all Goodyear Tires.

You can well do so because you can secure in the small Goodyear Tires the results of such skill and care as have made Goodyear Tires the preferred equipment on the highest-priced automobiles of the day.

You can well do so because these small Goodyear Tires are easy to obtain, being produced at the rate of 20,000 a day, and because their first cost usually is as low or lower than that of other tires in the same types and sizes.

Go to the nearest Goodyear Service Station Dealer for these tires, and for Goodyear Heavy Tourist Tubes. He supplies many other local owners of small cars.

"Aunt" Nannie Wallace is very sick at the present writing.

Bryan See was on our creek Sunday. Ed Conley, who has been up the river at work, is with home folks now. Gwinn Chapman spent a few days with his grandparents at this place last week.

Josephine Lambert is visiting relatives at Kenova, W. Va. K. G. Chapman has returned home from Huntington, W. Va., after being there several days on business.

Z. T. Frazier has not yet returned from his search for a farm on the Ohio river. He has sold the one he has for several years resided on here and we expect in the near future to lose an esteemed neighbor by his removal.

Ben Chapman has returned to the coal fields of W. Va. Several of the boys are fox hunting now.

Church at this place Sunday was not largely attended, weather conditions probably being the cause.

Practically all bridges in our vicinity are now in such a condition, after the high water that it is impossible to traverse them, but as one of our citizens remarked, "We do not need bridges without roads," our roads being in a frightfully run-down shape for many seasons being exposed to weather and wagons with no attention. Work on roads stopped here in 1917 as the war needed our attention but now we all know (except some members of Congress) that the war is over.

Jimison Hardwick is again in our midst.

YATESVILLE

The oil operations owing to the inclement weather of the past week has been moving along somewhat slower than usual, as all the readers of this article know we have had one awful wet and muddy week, besides the heaviest sleet we have had for a long time past and which has done considerable damage throughout our locality. Our telephone service as well as our mail service has been badly crippled by the sleet and by the high waters. The bridge crossing the James Casey branch has once more been knocked from its foundation, again rendering the road leading to Fallsburg of no service at all to teamsters and to the traveling public other than footmen. Of course as to the mail service, when we have no mail route we can't expect any mail service and our mail route from Tuscola to Louisa has been completely cut in two by the back water here at Mr. Blankenship's barn for about two days of the past week.

The same oil machinery that completed well No. 2 on the land of G. J. Carter will be moved but a very short distance on to the land of the Widow Bartram during the present week where the drilling of a well will be begun as soon as the machinery can be placed in position.

James Casey, J. W. Elkins and John M. Bentley, Jr., went to Wayland, Ky. on Beaver Creek where they organized an Odd Fellow lodge on the night of the 22nd inst.

Bascom Thacker, who has been on the sick list for some days past, is able to be out.

Mrs. Mary Rufe is on the sick list. Rumor has it that the entire families of Harve Salter and his son Jay Salter who both live in the same house, are down with the smallpox. If the rumor is true it will be quite a pull back on them, Mr. Salter having got his house and all its contents destroyed by fire within the last few weeks.

The rains of last week have done considerable damage to our small mines that are being operated here in order to furnish coal to the oil operators.

Ben F. Bentley, who has been at work at Holden, W. Va., has returned home with a very severe case of sore throat, a trouble of which we hear there is a great deal through the country just now.

FEW HOURS.

Relief comes instantly. A dose taken every two hours until three doses are taken usually breaks up a severe cold and ends all the gripe misery.

The very first dose opens your clogged-up nostrils and the air passages in the head, stops nose running, relieves the headache, dullness, feverishness, sneezing, soreness and stiffness.

Don't stay stuffed-up! Quit blowing and snuffling! Clear your congested head! Nothing else in the world gives such prompt relief as "Pape's Cold Compound," which costs only a few cents at any drug store. It acts without assistance, tastes nice, contains no quinine—Insist upon Pape's!

MAY LOCATE AVIATION
STATION IN LEXINGTON

Lexington, Ky.—Representatives of a commercial aviation company have been in Lexington looking over available sites for a station in and around the city, as well as investigating the probabilities of securing shipments of sufficient tonnage of freight to warrant the location of such a station here. It would operate in conjunction with Cincinnati and other northern points. The company desires a field 3,500 by 2,500 feet or equivalent in size, which is clear of all serious obstructions. There are several such places in the immediate vicinity of the city.

Democrats to Meet This
Time in San Francisco

The Democratic National Convention of 1920 is to meet in San Francisco. The convention will open June 28 at noon. Never before has a national convention of either party been held west of the Rocky Mountains. One of the strong pleas for going to San Francisco was made by the women. They argued that the women of the West brought victory to the Democratic party in 1916; that the women of the West are to be credited with the progress that has been made for woman suffrage; and that by holding the convention in the West the Democratic party would be strengthened for the coming national election. San Francisco pledged to raise \$125,000 for the Democratic National Committee, to raise \$50,000 for entertainment, to furnish the best hotel accommodations of any city in the nation, and to house the convention in the finest auditorium on the continent, the gift of the Pan-American Pacific International Exposition to the city.

U. S. Senator Newberry, of Michigan, is on trial under an indictment for using illegal means to secure his election. He defeated Henry Ford for the Senate.

Admiral Sims likes to administer discipline, but breaks all the rules himself. He is unworthy of his high position.

Holland refuses to surrender the former Kaiser to the Allies. Looks like he will be permitted to live out his natural life. Here's hoping it may be as miserable as possible.

Congress continues to play politics with the peace treaty. Statesmen are few and far between in that body; but it is lousy with cheap politicians. They are not fooling the people.

Through Secretary Glass, President Wilson today renewed the appeal to congress to grant credits of \$150,000,000 for Poland, Austria and Armenia to alleviate conditions which threaten "moral and material chaos" in those countries.

Secretary of Agriculture Houston has been appointed Secretary of the Treasury in President Wilson's cabinet and Edwin L. Meredith, of Des Moines, Iowa, succeeds Houston. Secretary Glass retires from the Treasury portfolio to become Senator from Virginia.

Instead of 314 useless offices in Kentucky, the end of four years will find a million useless officers unless Gov. Morrow slows down the machinery that is grinding out Colonels by the car load. Writer's cramp in signing the commissions may check the flood.

In the last herd of noble Kentuckians branded as "Colonels" we notice the names of a couple of Big Sandy thoroughbreds—W. H. Weddington, of Coal Run, Pike county, and S. C. Ferguson, of Prestonsburg.

Senator Brig Harris of this district voted for the resolution calling upon Gov. Morrow to furnish a list of the "314 useless offices" which he declared in his campaign speeches should be abolished. The Senate wants to abolish them but is unable to find more than a small percentage of that number. Senator Harris believes in sincerity in all these matters and in carrying out election promises.

NOTHING IS MORE HONORABLE THAN WORK

The boy in school should be taught, along with other essential and necessary things, that the skilled mechanic today is making more money than the clerk or the bookkeeper and more than the bulk of professional men. Also that nobody is held in higher esteem by the sensible people of this day than the honest working man who has character and brains and who devotes himself to constructive occupations. It does not pay to be a second-rate lawyer or a second-rate doctor or any other second-rate professional. It doesn't pay because the skilled worker makes more money and fills his place worthily, while the mediocre professional man is not a success, does not enjoy the admiration of his fellows, and is a detriment to his family because his earnings are not what they would be if he were in the skilled trades, which will, ere the growth of another generation, have the same distinction that now attaches to the professions as we name them and regard them.

Boys must be taught that they are being educated not in order that they may avoid work, but that they may become more efficient working men. In these days of general education it would be calamity to create in all boys the idea that they are being educated into business or into the professions. The professions are overcrowded, while the demand for intelligent working men never was so great nor the reward so liberal.—Herald Dispatch.

CATLETTSBURG

The Kirks Were Here.

The Kirks, Ike and Heby, the notorious desperadoes who murdered two officers about Christmas, were really and truly here last week. Officers Mills and Fire Chief Ira Kincaid saw the suspects at Hampton City, firing at them, and they also noticed a freight train standing on the track. It develops that the fireman John Ward, of Paintsville, who knew the Kirks well says that when the train reached Ashland and stopped that the two outlaws came inside the engine to warm and talked to him. They could easily have written letters leaving them for their friends to mail, so as make it appear that they are still in their old neighborhood while at the same time they were making their way out. This is more than likely the case and they are probably well on their way to parts unknown by this time.

Mrs. Lykins Dies.

Mrs. Amanda Lykins, aged 88 years, 4 months and 8 days, died at her home at Hampton City Sunday morning. Her death was caused from pneumonia. The remains were removed to the home of her daughter, Mrs. Lute Adkins, where the funeral was held Tuesday morning. Burial was made in Catlettsburg cemetery. Mrs. Lykins had resided here for many years and was loved and respected by all who knew her. She was reared in Wayne county, W. Va., and was a daughter of Henry Hampton and wife Mrs. J. Thompson-Hampton. She was a widow and is survived by several children.

Malone-Geiger.

A marriage which is one of interest to a large circle of relatives and friends of both bride and bridegroom throughout northeastern Kentucky is that of Mr. Harry Geiger, of Ashland, and Miss Harriet Malone, the beautiful daughter of Dr. James Malone, prominent dentist of Grayson, Carter county. These young people quietly betook themselves to Catlettsburg last Saturday, where they were married by Rev. Mr. Keyser. They left over the C. & O. for a bridal trip east, Washington and New York as the chief objective points, and upon their return will make their home in Ashland with the bridegroom's father, Mr. J. E. Geiger, Ringo avenue.

Funeral of Mrs. Ulen.

The funeral of Mrs. Adeline Ulen, aged 97 years, was held at the First M. E. Church South here Tuesday, the remains having been brought here from Huntington, where she passed away Sunday at the home of a grandniece, Mrs. J. A. Castle. She had attained to nearly a century in age and might have lived several years longer had she not sustained a fall some weeks ago and had a broken hip as a result and since then steadily declining, the end coming not unexpected. Mrs. Ulen had been a member of the M. E. Church South here for a great many years and was devoted to its institutions. She was Adeline Bowen prior to her marriage when 18 years old to L. B. Ulen and she with him spent the greater part of her life here. He has been dead about 20 years. She was a brilliant woman, possessed of a wonderful memory.

The First of the Newer Dresses for Spring

—A Fine Collection of Charming Models Emphasizing the Most Favored Style Tendencies

Distinctively new—and by far the most attractive garments we have ever displayed. No material seems to be too fine, or no class of work too tedious to be lavished on these beautiful dresses. Their distinctive appearance is due to several important reasons. First, the materials are of the finest quality. Second, the workmanship is unsurpassed. Third, and most important is the fact that they are the products of the best makers—styles sponsored by Fashion, and developed by masers.

FOR SOUTHERN WEAR

A number of the models are specially designed for Southern wear and are developed from the finest materials—some in daring stripes and others in delicate tints and combinations. The majority are more practical for our own good climate, and offered in a pleasing variety of rich materials. They are fashioned from georgette, crepe de chine, tonkin, satin, taffeta, combinations of taffeta with georgette and of georgette with handmade flit. The colors include brown, navy, black, beaver, copen, Belgian, peach and green.

BEAUTIFUL LINES—TRIMMINGS ELABORATE

Straight lines predominate in the assortment as a whole, yet a number show a decided fullness at the hips. The basque with an abbreviated coat is one of the newer features, while the tiered skirt is also in evidence. The elaborate trimmings include chenille and silk embroidery, applique, plaited and accordion plaited skirts, wooden beads, Bulgarian embroidery and frilled cuffs and collars.

See Them on Your Next Visit Priced From \$35 to \$200

EXCLUSIVE FOOTWEAR FOR SPRING IS READY

The largest shipment of Wright & Peters models we have ever received is in our shelves—and ready to show. We believe when you see them, that you will share our enthusiasm, for seldom if ever before, have we been so delighted over our purchases. We will be unable to duplicate any of these models for later delivery, and we would suggest that those who prefer Wright & Peters shoes should select them without delay.

The Low Shoe Holds Full Sway

This will be a season when the low-cut will receive undivided popularity. The boot has stepped down and out, and when one views the new low models, this retirement seems fully justified. First in prominence among these new arrivals is the one-eyelid tie. This style has the endorsement of all Fashionists, who predict that it will be the most popular of all Spring offerings. The high French and Baby Louis heels will continue in favor, while black buckskin, brown, black, dull, patent and white kid will be the vogue for dress.

THE UNIVERSAL CAR

Out of the more than 3,000,000 Ford cars now in use, about sixty percent have been sold to farmers. Probably no other one thing has brought to the farm so much of comfort and profit as has the Ford car. It has enlarged the social life, doubled the facilities for marketing, brought the town next door to the farm, multiplied for the farmer the pleasures of living. A family car without an equal in low cost of operation and maintenance. We solicit your order for one now because the demand is large and continually increasing.

PRICE OF OIL HAS ADVANCED AGAIN

The Cincinnati Enquirer yesterday quoted Somerset oil at \$3.50, which is a raise of 25 cents per barrel if correct. The Enquirer quoted the price wrong for some time last fall, so we give this quotation for what it is worth. An advance has been expected ever since the advance of Monday was made on the Pennsylvania grade, and this encourages the belief that the \$3.50 price is correct.

CONVALESCENTS BUILD UP ON PEPTO-MANGAN

Increases the Supply of Rich Red Blood—Restores Strength and Vigor.

PHYSICIANS RECOMMEND IT

Sold in Liquid and Tablet Form—The Name "Gude's" the Guide to Genuine Pepto-Mangan.

A serious illness such as influenza or other infectious disease always leaves the body with low vitality, lack of strength, and impoverished blood.

Gude's Pepto-Mangan aids convalescents to a quick recovery, for it creates a generous supply of rich, red blood and restores the body to its normal, healthy condition.

That's why physicians recommend Pepto-Mangan, for they know that it imparts to the blood the material so sorely needed by weak, run-down systems.

Pale, sallow, thin, easily-exhausted men and women find that Pepto-Mangan builds them up wonderfully. A new supply of rich, red blood is created, which in turn imparts the glow of health to the cheeks, increases the appetite, the eyes sparkle, the entire system takes a new lease on life.

Pepto-Mangan is obtainable in liquid or tablet form, whichever proves most convenient. Both forms possess identical medicinal qualities.

There is but one genuine Pepto-Mangan and that is "Gude's." Ask your druggist for "Gude's" and look for the name "Gude's" on the package. If it is not there, it is not Pepto-Mangan.

To Big Sandy River.

Dear River of Big Sandy!
Dost thou know thy worth?
To the noblest sons and daughters,
Thou hast given birth!

Thy hills, thy vales and streamlets,
All have issued forth
And added to the big world
Things of endless worth.

Thy "Johns" alone, Dear River,
Will stand a mighty test
For having given to the world
The things that life holds best.

There was "John," the giant dreamer
Who from thy crusted hills,
Brought forth tons of black diamonds
That the world's great coffers fills.

And there is "John," the banker,
Who can shame his worth?
He fights for right, always,
And his banks never burst.

There's "John" who goes to Washington
And helps to make the laws;
The many times he's been there—
Now glorifies his cause.

We could write of "Johns" forever
But it isn't fair
For the "Sams," "Bills" and others
Must too, have a share.

There are statesmen, doctors, lawyers,
Preachers and editors by the score,
Who from thy towns and hamlets
A constant outcome pour.

There is "Fred," who is revered
By all who know his name;
By fighting for the Master,
Has won the widest fame.

Thy lovely, virtuous daughters
Have added to the store
Of wondrous good and knowledge,
That passes out thy door.

Many of thy noblest
Are sleeping 'neath the sod—
But we know their souls are happy
In the land of God.

May thy trembling waters,
Ere their mournful dirges sing,
As around their silent homes,
Thy surges ever cling.

'Tis not volumes of water
That makes a river great;
'Tis her loving souls and true ones,
And the way they deal with fate.

ROCK LILY.

A LEOPARD CANNOT CHANGE ITS SPOTS

Mr. Dodson, the "Liver Tone" Man, Tells the Treachery of Calomel.

Calomel loses you a day! You know what calomel is. It's mercury; quick-silver. Calomel is dangerous. It crumbles into your bile like dynamite, cramping and sickening you. Calomel attacks the bones and should never be put into your system.

When you feel bilious, sluggish, constipated and all knocked out and believe you need a dose of dangerous calomel just remember that your druggist sells for a few cents a large bottle of Dodson's Liver Tone, which is entirely vegetable and pleasant to take and is a perfect substitute for calomel. It is guaranteed to start your liver without stirring you up inside, and can not salivate.

Don't take calomel! It can not be trusted any more than a leopard or a wild-cat. Take Dodson's Liver Tone which straightens you right up and makes you feel fine. Give it to the children because it is perfectly harmless and doesn't gripe.

Y. W. C. A. PLANS WORLD PROGRAM

Mrs. John D. Rockefeller, Jr., Heads Association's 1920 World Service Program.

\$3,000,000 NEEDED FOR WORK.

Leader Calls Association a "Stabilizing Influence" in Outlining Post-War Program for Women—Federal Council of Churches to Announce "Y. W. C. A. Sunday."

Mrs. John D. Rockefeller, Jr., chairman of the National Educational Campaign Committee of the 1920 World Service Program of the Young Women's Christian Association, has made the following statement:

"Since the war we are more than ever aware of the economic, industrial, educational, social and religious difficulties which beset the lives of girls and women everywhere. In meeting the post-war needs of women the Young Women's Christian Association stands as an instrument of service, tested and proven by war, and organized to meet the manifold problems of peace."

"Because of its fifty odd years of experience in meeting fundamental problems affecting girls, the Young Women's Christian Association is an organization particularly fitted to exert a stabilizing influence upon the troubled times through a consistent program of service for girls and women."

"American women are asking how they may share in the world's reconstruction. They can do so by enlisting the support of their communities for this World Service Program, which will insure to the world a healthier and better womanhood."

"This campaign of the Y. W. C. A. to tell the people of the United States about its work and to raise \$3,000,000 with which to carry on Y. W. C. A. work during 1920 in the United States, Europe, China, Japan, India, South America, Egypt, Siberia and Mexico will close the week of February 22 to 29, which will be known as Y. W. C. A. Week."

"The Federal Council of Churches will probably set one Sunday as a time for ministers throughout the country to address their congregations on general conditions affecting women and the Young Women's Christian Association as an instrument of service."

"The immediate task is to bring to the people of the United States a knowledge of conditions affecting the lives of women in all parts of the world. We can no longer ignore the character, the manner of life and the ideals of other peoples, whether we want to or not. A special call is now coming to the Association from China, Japan, India and South America, where work was held back during the war because of the necessity for special activity in France and the United States."

"The World Service Program calls for \$4,500,000. Of this amount \$1,500,000 has already been secured."

The educational campaign committee includes among its members Mrs. Robert E. Speer, president of the National Board of the Y. W. C. A.; Mrs. Henry P. Davidson, Mrs. William Van V. Hayes, Mrs. Robert L. Dickinson, Mrs. William Adams Brown, Mrs. Van Sanford Merle-Smith, Mrs. Lewis H. Lapham, Miss Ellen Hale Stevenson, Mrs. Frederic B. Pratt and Mrs. Herbert Lee Pratt.

Recreation for Girls is Important Feature of Work.

Fifty-two young women in the United States are known as Y. W. C. A. "town secretaries." All of which means that the fifty-two are organizing recreation work for girls and for the community at large in towns of less than 10,000 inhabitants.

IN MEMORY

On Monday evening, Jan. 5th, the pale horse and its rider visited the home of Mr. C. C. Hatton and took from his loving wife Julia, age 52 years. Mrs. Hatton had been in poor health for some time, but no one thought death was hovering so near. It came as a great shock to her many friends. She was converted and joined the M. E. Church early in life and lived a devoted christian until the end. It is said we are known by the life we live here, an awe believe that sister Hatton is today singing sweet songs around God's bright throne. She always met her friends with a kind word and a sweet smile. Oh how we miss her when we can no longer see her precious form or her smiling face here on earth, but we can join her with the ransomed in that home so bright and fair.

She leaves to mourn the loss of a tender mother, a loving wife and sister, one son, Dwight, a husband, five sisters and four brothers

HOME CIRCLE COLUMN

THE KIND OF BOYS WANTED.

There's a junior partner wanted
By Will Succeed & Co.,
Who do a rushing business
Way up on Fortune Row.
I've seen their advertisement—
"No capital required."
But boys with pluck and courage
Are just the kind desired.

They want a boy who has no fear
Of steady plodding work;
Who does not wait for luck or fate,
Who seizes a task to shirk.

Who does not wait for help to come
From fairy, witch or elf,
But laying hold on "Fortune's wheel"
Turns it around himself.

And lads like this are just the kind
For Will Succeed & Co.,
Who are wanting junior partners
Way up on Fortune Row.

BE TOLERANT.

One of the greatest virtues in this world and one of which we seldom hear is the virtue of tolerance. It is something which is needed in American life today, both public and private. Quickness is an American characteristic and we are sometimes too quick in our judgment of other people. A quick judgment is seldom a sane judgment. We are too prone to down the "other fellow" when he commits some act or word which does not agree with our idea of what he should have done or said under the circumstances.

This does not mean that we are narrow minded where politics or religion are concerned. Our education and our national "open-gate" policy has overcome this. But we are too quick to judge our fellow beings when their personal life and habits are concerned. Frequently we know very few of the circumstances, but we jump to a conclusion, base our judgment largely on hearsay and denounce someone as hard-hearted or a coward when, if the truth were known, he is probably a better man than we.

Many times people display lack of nerve at a crisis thru no fault of their own. It may be that they have been overworked and their nervous system will not stand the added strain, or it may be the outcropping of some inherited tendency which needs only a nervous crisis to show it up. Consequently, we should be tolerant in our judgment. Some day we may be in need of tolerance ourselves.

In passing groups of children on the street we sometimes wonder what has become of the quiet, well-mannered children of yore. Perhaps we saw so many of them we failed to appreciate them but now the species seems to be nearly extinct. By quiet, well-mannered children we do not mean sissy boys and little old maids. No one can find a happier sight than good, wholesome children at play, but they should know there is a place for their shouting and their play and that place is not on the public streets, where they carelessly run into everyone as if they had the right of way and without as much as a backward glance go tearing on. Mothers probably do not realize the way their children act on the streets, yet they cannot expect them to act with the proper sobriety unless they are taught.

Give us back once more the old-fashioned, sweet mannered children, happy and wholesome in their play but gentle and quiet in public. It may sound cute the first time a child says, "Betcher life," or "Nuttin' doin'." But these phrases soon lose their attraction and sound only ill-bred.

TAKING INVENTORY.

The merchants have all been very busy the last few weeks taking inventory and it has just occurred to us that this might be a good practice to carry out individually, not as regards our material wealth, or property, but as regards our lives, our virtues and vices, our rating in the Credit Book of Heaven—is it higher or lower than last year?

You will probably find that your stock of Courage and Brotherly Love has run pretty low. Stock up strong with these and lay in a good stock of Determination. Maybe you have on hand a lot of goods you don't want, goods that won't sell and that take up room in your store where you want to put new goods. Probably these are selfishness, bigotry, evil-thinking, Wrong-doing and other similar brands. Don't try to hold an auction and sell these off cheaply because you will be sure to make a bitter enemy of the man who buys them no matter how little he pays. The only safe way to dispose of this brand of goods is to dig a hole deep in the Past and bury them so they can never get out.

Now you are all ready to start business with a brand new stock. Plan your work so you will be sure to see a lot of it because if you don't use it, it will soon turn into the same old stuff you have just buried.

Keep a stock of souvenirs on hand to give to your customers each time they come in, such as A Square Deal, Service, Satisfaction, Fairness, and Charity. These are very inexpensive and you will be repaid for using them by receiving a large amount of Friendship and Goodwill in return.

Conduct your business of living after this fashion and you will be rated A1 in Heaven's Credit Book.

Kentucky Newspaper Woman
Honored By Governor

Col. M. Annie Poage, Ashland, Ky.

That women are fast taking their place in the affairs of the Nation was made apparent recently when Governor James D. Black of the Grand Old Commonwealth of Kentucky appointed Miss M. Annie Poage, of Ashland, aide-de-camp on his staff with rank of Colonel. Governor Black is the first Kentucky Governor and probably the first Governor to thus honor a woman. When this recognition came to Miss Poage she was busy with the daily "grind" of newspaper work, and was both surprised and pleased with the compliment.

She is one of the leading newspaper women of the South, and made herself prominent during the war with her writings and war work generally. She finished her early education by preparing herself as a dramatic reader, and had the honor of being valedictorian at the Soper School of Oration in Chicago.

While she was busy day after day earning her bread by the end of her lead pencil, when the "call to arms" came she was ready to answer, and did it just as bravely as those who fought on the battlefields of France. When the Council of National Defense wanted a "live wire" in Northeastern Kentucky she was made the first chairman and asked to complete the organization. She called meetings at her home and night after night met until the organization was ready for work, she accepted the office of Publicity on Educational work. She also served as chairman of Food Administration for Boyd county, and it was while working along these lines she saw the need of spreading interest and getting the whole county organized and she conceived the idea of organizing the ONE HUNDRED FOUR MINUTE speakers of Boyd county on food conservation.

These One Hundred Speakers were made up of both men and women, and were chosen from "the butcher, the baker and the candle stick maker." Realizing that there must be more than war munitions in the hands we stretch across the sea, that the cause of Democracy must be fed as well as armed, they went forth proclaiming Mr. Hoover's Gospel of "The Clean Plate and Empty Garbage Can." These one hundred speakers received so great a recognition that the organizer of this band received a letter from war workers in Washington asking, "why they did not unite with the Government's

FORT GAY

We are sorry to chronicle the several deaths which have occurred inside the past week in and around Fort Gay.

Mrs. R. A. McKee, wife of the shoe repairer here, died last Saturday and was laid in her last resting place in the Frasher hill cemetery Tuesday afternoon.

Mr. Honaker, the man who bought the Schmucker store property of C. R. Wilson, has bought also the entire merchandise in same of Mr. Wilson and is now doing business in our town.

Mr. Wolf, the pastor of the Holiness church is filling his regular appointments. The revival meeting of several denominations combined closed the series of meetings on Monday night.

Lewis Borders will soon have another new residence completed on Hotel St. in the east end of our town.

Ranzy Bartram, we learn, has bought the claim of Wellie Vinson on the two lots in the center of our town and is contemplating building on same in the near future.

Rev. L. D. Bryan's wife is very sick with the flu. Having been in poor health so long it is feared she can not recover.

Our public school will close next week, that being the end of the present term. We understand the merchant C. R. Wilson will soon move across to Louisville and will engage in the mill, grist and feed business. We are sorry to

lose a good merchant and citizen.

We are also informed that the Fred Wilson restaurant will change hands and the present occupant will leave for some place in Ohio.

Also it is reported that Allie Frasher is buying the property of Abel Roberts up the branch above the Holiness church.

Our high school is progressing nicely with Miss Lucy Peters teacher, and quite a good attendance.

Y. W. C. A. CALLS
BIG CONVENTION

2,000 Women Expected to Gather in Cleveland the Week of April 13-20, 1920, for National Convention.

MEETING POSTPONED
TWO YEARS BY WAR

Delegates Will Discuss New Membership Basis for Students and Question of Future Support for Work. Many Other Things.

The Young Women's Christian Association of the United States of America will meet in national convention in Cleveland, O., the week of April 13 to 20, having postponed the convention from the spring of 1918 in order to comply with a government request that expense and travel be reduced to a minimum during the war.

The department on conventions and conferences of the National Y. W. C. A., of which Mrs. Harry Emerson Fosdick is chairman, estimates an attendance of 2,000 women, representing all departments of Y. W. C. A. work—board members, secretaries, students, club girls, Girl Reserves, girls from Industrial Service Centers, women from the International Institutes for foreign born women, members from city, town and country Associations.

Each Association in the United States will be entitled to one voting delegate for every one hundred voting members in the Association.

Two of the most important questions which will come up before the convention will be the membership basis and the question of support. Of old business to be considered the most important question will be the membership basis for student associations, the granting of charter membership privilege to the Chicago Young Women's Christian Association and a recommendation providing an increase in membership of the National Board of the Association will also be presented.

Rev. Charles W. Gilkey, pastor of Hyde Park Baptist Church, Chicago, will give a series of morning addresses during the convention week. Dr. Robert E. Speer, secretary to the Foreign Mission Board of the Presbyterian Church, North, will also give an address. Mrs. Speer is chairman of the National Board of the Y. W. C. A.

The convention will be in session morning and evening, the afternoon being given over to sectional meetings held in various churches. Attendance at these meetings will be determined by group membership and also by activities.

Mrs. W. P. Harford of Omaha, Neb., will preside at the opening session, having been elected as president at the last convention of the Young Women's Christian Association, held in Los Angeles in 1915.

The committee on business to come before the convention has for its chairwoman Mrs. John French and includes among its members Mrs. John D. Rockefeller, Jr., Miss Eliza Butler, sister of Nicholas Murray Butler, president of Columbia University; Miss Martha McCook, Miss Mabel Cratty, general secretary for the National Board of the Y. W. C. A., and Mrs. William Adams Brown, all of New York city.

TOWN GIRLS TO
HAVE Y. W. C. A.

Association Maintains 52 Town Secretaries—Wants to Expand Work at Once.

"During the war girls all over the world had their first lesson in nation wide and world wide thinking," says Miss Mabel Head, director of Town and Country Work for the National Y. W. C. A.

"Girls learned something of the inspiration of working with hundreds and hundreds of other girls, unselfishly and unstintingly, through Red Cross work. Now the Y. W. C. A., through its world wide program of service for women, is planning to expand its work so that girls all over the world, and particularly in smaller communities, will not lose this experience. "Citizenship forums are being organized for girls in small communities, where girls may come together to learn more about their country and their responsibility to it and as citizens of the world."

"Reading courses have been planned at National Headquarters in New York so that a girl in any community may carry on a course of study, either by herself or with other girls, on a wide variety of subjects."

"The Y. W. C. A. has at present thirty-nine secretaries doing county work. This means that they travel about from one community to another helping girls to plan out social, recreational, educational and religious activities for themselves and organizing them to carry on these activities. These secretaries work with the county agents of the Department of Agriculture in carrying on home economics work. They help plan pageants, arrange benefits, assist the girls in going to Y. W. C. A. summer conferences and help plan all sorts of social good times for the community."

Instantly every man in the church arose except one.

"Ah!" exclaimed the minister, peering out at this lone individual, who occupied a chair near the door. "You are one in a million."

"It ain't that," piped back this one, helplessly, as the rest of the congregation gazed sympathetically at him. "I can't get up; I'm paralyzed."
